

Model 73-201

The most versatile portable extractor available, with High and Low extraction capability for MIG, TIG, and soldering work. Designed for field work, maintenance, and production welding, this unit is lightweight, portable and easy to use.

Featuring nine filtering combinations, including HEPA for Hexavalent Chromium control, and 95% for carbon steel weld fumes.

Model 73-201

- 113-226 CFM high vacuum fume extraction and filtration capability
- Two models: 73-201-HEPA for Hexavalent Chromium control, and 73-201-95 for carbon steel weld fume control
- 9 available filtering combinations permit maximum flexibility for varying work applications
- 10-foot durable extraction hose with flexible steel tube hood assembly
- Magnetic support base allows for hands free operation
- Filter change status LED light
- Built-in spark trap for fire safety
- Heavy-Duty, all-steel cabinet for years of rugged use
- Optional WeldSense™ arc sensor facilitates ease of use, saves energy, and lengthens filter life
- Two-year limited warranty
- Made in USA
- 24”L x 17”H x 12”W, 58 lbs. (with filters installed)
